

More understanding cases

A factory worker hammers hot metal, but the impact sound occurs several seconds after the hammer visibly hits the metal.

Human eval: [1.0, 0.2, 0.3]→0.5
 AVC-Reward(Ours): [1.0, 0.4, 0.4]→0.6
 Qwen3-Omni-Thinking(baseline): 0.92
 ImageBind:0.28 | AVHScore:0.20

AVC-Reward conclusion
 "...While the general atmosphere is cohesive, the lack of precise timing between the hammer impacts and the resulting sounds ..."

A concert performance ends with the orchestra packing up and bowing, while the music continues throughout.

Human eval: [0.7, 0.7, 0.7]→0.7
 AVC-Reward(Ours): [1.0, 0.7, 0.7]→0.8
 Qwen3-Omni-Thinking(baseline): 0.92
 ImageBind: 0.44 | PEAVS: 5.0

AVC-Reward conclusion
 "...The musicians are miming to a studio recording, which breaks the authentic physical connection between their actions and the sound produced. ..."

A choir performance shifts from the conductor to the singers; both gestures and lip movements match the audio.

Human eval: [1.0, 0.8, 1.0]→0.93
 AVC-Reward(Ours): [1.0, 0.9, 0.9]→0.93
 Gemini3.1pro: 0.3 | JavisScore: 0.19
 Beyond Time Shifts evaluator: -6.9

AVC-Reward conclusion
 "... represents a standard concert recording where the audio track is a direct recording of the visual performance...."

A band performance with multiple instruments and vocals in the audio, all synchronized with the visible playing and singing actions.

Human eval: [1.0, 1.0, 1.0]→1.0
 AVC-Reward(Ours): [1.0, 1.0, 1.0]→1.0
 Gemini3.1pro: 0.37 | DeSync: -1.6
 AVbench evaluator: 0.25 | PEAVS: 1.35

AVC-Reward conclusion
 "...the audio-video consistency is exceptionally high across all dimensions. The content is perfectly coherent, synchronized, and semantically aligned ..."
