

Understanding cases

A factory setting with a puppet speaking, ambient sounds of factory and an atmosphere BGM.

puppet speaking

ambient sounds and BGM

Human eval: [1.0, 1.0, 0.8]→0.93

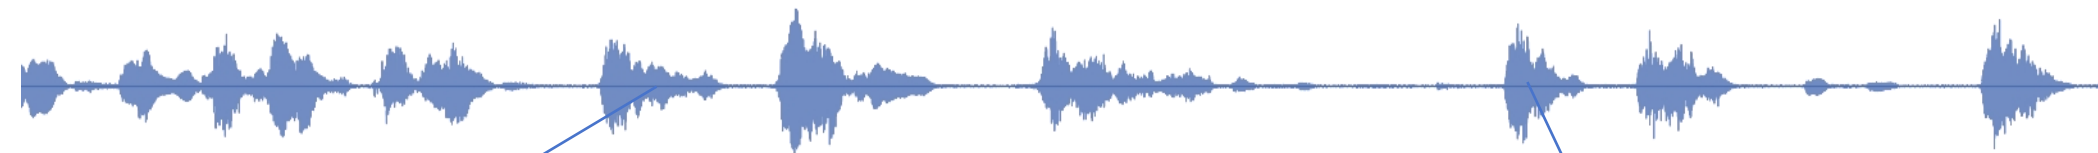

AVC-Reward(Ours): [1.0, 1.0, 0.9]→0.97

Qwen3-Omni-Thinking(baseline): 0.46

PEAVS: 3.44 | JarvisScore: 0.25

AVC-Reward conclusion
"...the ambient background music and drone. This is a common convention in film and animation and does not significantly detract from the overall coherence ..."

Two people talking in the frame but only one clear speech in audio.

clear people speaking

noise resembling bird calls

Human eval: [0.7, 0.3, 0.5]→0.50

AVC-Reward(Ours): [0.4, 0.4, 0.4]→0.40

Qwen3-Omni-Thinking (baseline): 0.10

PEAVS: 4.93 | Qwen3-Omni-Instruct: 1.00

AVC-Reward conclusion
"... The only point of minor connection is the presence of a feminine-like voice that matches one of the two anime characters on screen ..."

Generation cases

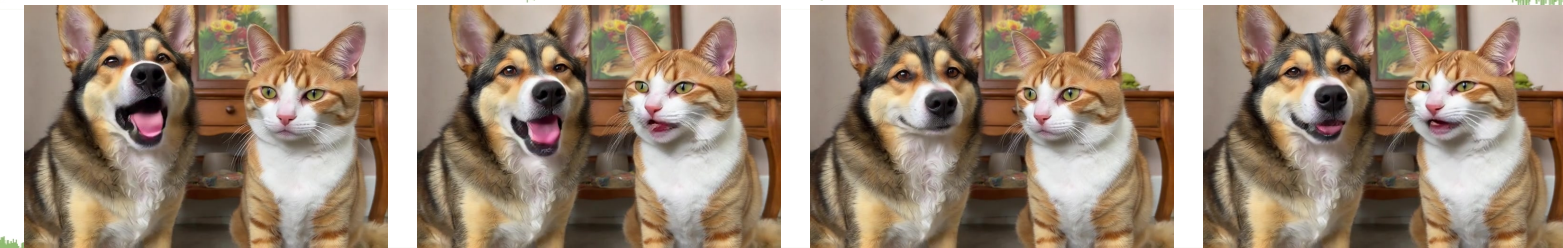

prompt: "A dog stands on the left side of a room and lets out a deep bark. Then a cat on the right side answers with a sharp meow."

LTX-2

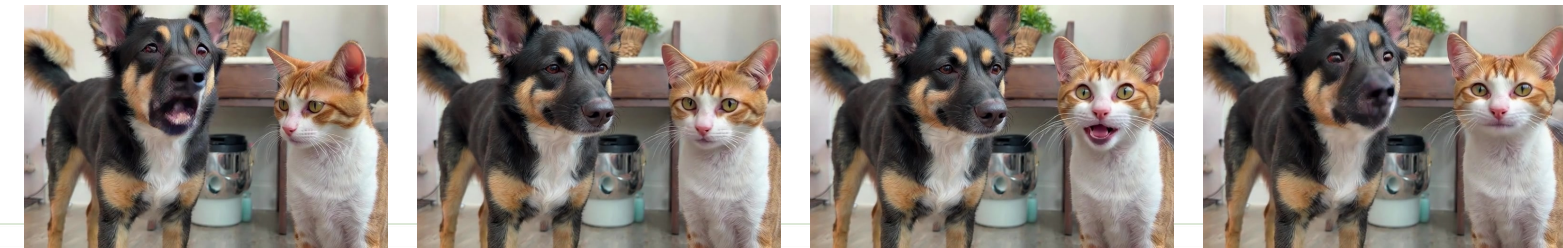

Mouth-opening during barking/meowing is unclear.

OmniNFT

Both animals open their mouths during each barking/meowing sound.

Ours

Dog opens its mouth for the bark; cat for the meow.

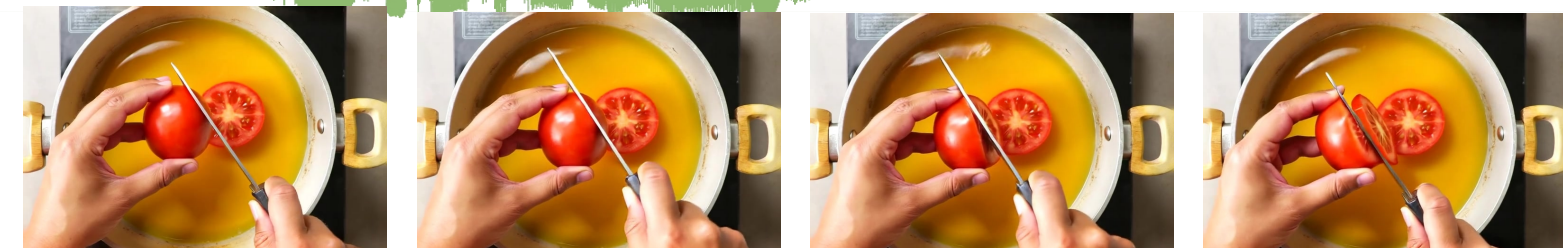

prompt: "An overhead cooking-tutorial shot shows hands slicing a tomato into even rounds beside a gently simmering pot. A calm off-screen narrator says..."

LTX-2

Narration only; no chopping sound.

OmniNFT

No clear, complete chopping action.

Ours

Clear chopping synchronized with the chopping sound.
